

Visioning Activity

- 1. Think about the existing situation and social aspects of your current society..... What sorts of changes would you like see/may happen in your existing society after 10 years ?
List at least 5 changes
 2. Why are you thinking about these changes? How these changes will happen? Will these be happened for functionalism/conflict theory?
 3. Which social aspects/parts of your society will play key role for these changes? How?
 4. Can you relate these theories/approaches of Sociology of Education with the required social changes that you identified from your own society?
